

To Members, East Porpoise Bay Ratepayers' Association.

Please note that notice of a public information meeting for Stockwell Enterprises' application for a temporary use permit for their proposed concrete batching plant has been posted on the District of Sechelt's website. It has been set for Wednesday, February 8th at 7:00 PM at the community meeting room.

A copy of the notice is Below.

We note that Gina Stockwell has emailed a defence of their application to all our members. It is unfortunate that this issue has been personalized. Many questions remain that could have significant impact on our community, and we urge you to attend the public information meeting. If you would like to find out more about the nature and impact of concrete batching plants, there is loads of information on the Internet -- worth Googling.

Michael Siddall,
Secretary

P.S. Your directors attended the Committee of the Whole meeting at which this issue was discussed. The Planning Department raised a number of key concerns about the project. We have a copy and would be pleased for you to review it prior to the meeting if you wish.
